Full details of the service to be provided will be confirmed in a letter of engagement.

4. Statement of independence

We are not tied to any third-party investment providers and whole of market advice in areas of investments, pension, insurance etc.

5. Products we offer

All our services are expected to result in the recommendation and arrangement / intermediation of a financial product(s) and / or investment(s) as follows:

- ⊗ Insurance:
We offer products from a range of insurers in respect of income protection, life assurance, critical illness and whole of life. We will advise and make a recommendation for you after we have assessed your needs.
- ⊗ Investment:
Please refer to ‘Statement of independence’ above. We will advise and make a recommendation for you after we have assessed your needs.

Please note that some tax, education expenses and Inheritance Tax planning solutions are not regulated by the Financial Conduct Authority. Where we are unable to make definitive tax assessments we will say so. In these circumstances it is your responsibility to obtain the relevant expert tax advice.

6. Existing financial and retail investment products (pensions & investments)

In certain circumstances, Wells Gibson will require you to sign a Transfer of Servicing Request which:

- ⊗ Ensures that 'servicing rights' can be established and maintained in respect of financial and retail investment products which have been arranged by other advisory companies e.g. we may need you to do this so that investment providers or insurers, with whom you have invested funds or arranged policies through previous advisers, will provide us with information about these products and allow us to deal with them on your behalf. and;
- ⊗ Allows companies to provide Wells Gibson with detailed information so that a comprehensive analysis of your financial position can be conducted and the suitability of any financial or retail investment product(s) can be properly assessed on an annual basis.

Importantly, before a Transfer of Servicing Request is signed by you, Wells Gibson will confirm and agree the type of service, which is to be provided, including all relevant charges.

Once servicing rights for a financial or retail investment product(s) have been established, it is possible for any income (commonly referred to as trail commission), to continue to be paid to Wells Gibson. However, we will not receive any income from a financial or retail investment product without prior agreement from you.

7. Ongoing financial planning, advice, recommendations and intermediation

Ongoing financial planning, advice, recommendations and intermediation are provided as part of our core services. A major element will be to continually assess the ongoing suitability of previous recommendations.

We refer to review meetings as Annual Wealth Plan Meetings and these are usually held annually, at our office. Online Annual Wealth Plan Meetings can be arranged using technology such as Zoom.

8. Rebalancing

Rebalancing is the process of re-establishing your pensions and/or investments to the target and originally agreed asset allocation. This means selling over-weighted asset-classes in your portfolio to buy under-weighted asset-classes. Rebalancing also ensures that the proportion of your pensions and/or investments which is allocated to cash is sufficient to meet our on-going fees and product charges. Where we undertake ongoing wealth planning for you, at Annual Wealth Plan Meetings, we will advise you when rebalancing your pensions and/or investments is recommended.

9. Our fees

Our fees¹ are dependent on the nature and the complexity of the work being carried out. All our fees will be confirmed in writing and agreed with you in advance of any work being carried out or any planning, advice and recommendations taking place. We will also inform you if VAT is payable. Details of all fees which apply to your investments will be confirmed annually by the Platform(s) in which your investments are administered and managed.

For an investment of £500,000, the typical **initial** fees and charges are as follows:

Wells Gibson		Platform		Portfolio		Total	
1.00%	£5,000	0.05%	£250	0.00%	£0	1.05%	£5,250

For an investment of £500,000, the typical **annual** fees and charges are as follows:

Wells Gibson		Platform		Portfolio		Total	
1.00%	£5,000	0.30%	£1,500	0.40%	£2,000	1.70%	£8,500

10. VAT and our services

Under **Article 135 (1) of the VAT directive** intermediary services are exempt as negotiation. Our role will normally involve us entering into arrangements with you, under which we will:

- ⊗ Obtain information about you;
- ⊗ Conduct research to find suitable investment options;
- ⊗ Provide you with reports, forecasts etc.;
- ⊗ Recommend specific investment solution(s) to you, including the prices at which these can be arranged;
- ⊗ Act between the product provider(s) and you with a view to arranging Retail Investment Product(s) as agreed with you; and
- ⊗ Where we provide an ongoing review service (Annual Wealth Plan Meetings), monitor your ongoing position to ensure that the products continue to meet your requirements.

Where you seek the arrangement of Financial or Retail Investment Product(s) and we perform services as outlined above, (regardless of whether the arrangement of the product(s) is finally concluded); and providing we are able to evidence that we have done so, our services will usually be exempt from VAT. However, where our services (or any part of them) are not exempt from VAT for any reason, or should VAT be properly due and chargeable under VAT legislation, we reserve the right to charge VAT to you on our fees at the prevailing rate.

¹ The fees and charges assume the recommended portfolio invests 60% in higher-risk, growth assets (e.g. equities / shares).

11. Commission from an insurance product

In the event that initial commission is available from the product provider of an insurance product (e.g. life assurance, critical illness, income protection), our default position is to arrange the product on a nil-commission basis in order to reduce the product charges and/or regular premiums. However, in certain circumstances, and where appropriate, clients might be given the following options:

- ⊗ Offset the commission against our intermediation / plan implementation fee(s); or
- ⊗ Have the commission refunded (in certain circumstances); or
- ⊗ Act for you on a commission basis.

However, please note that (where product provider commission forms all or part of our agreed remuneration) if the insurance product is subsequently cancelled or lapses and commission is reclaimed by the product provider, we reserve the right to seek reimbursement from you. We will not seek reimbursement if an insurance product is cancelled within the cooling-off period.

Glossary of Terms and Definitions

This glossary of terms and definitions has been created for you to help make investment literature easier to understand and to clarify some of the more common terms. The following are some of the key terms and a 'plain English' explanation. Please note that emphasis has been placed on clarity and brevity rather than covering every single complex detail.

We hope you find the guide useful and simple to digest. Please let us know if there is anything else that is unclear to you.

A

Anti-money laundering	Anti-money laundering refers to a set of laws, regulations, and procedures intended to prevent criminals from disguising illegally obtained funds as legitimate income.
Asset allocation	The selection of various assets within your investment portfolio. The allocation of your portfolio will not only determine the level of risk you are exposed to but will also, to a very large part, determine the potential returns. This is the basic principal that for every risk level there is an optimal combination of asset classes, which will maximise returns.

C

Collective Investment Scheme (CIS)	A professionally managed fund which combines the money of a broad range of investors in a single investment vehicle. This pools costs and allows access to a wider range of investments than investors would generally be able to achieve individually.
------------------------------------	---

D

Discretionary Fund Management (DFM)	Discretionary fund management is a form of investment management in which buy and sell decisions are made by a portfolio manager or investment counsellor for the client's account. The term " <i>discretionary</i> " refers to the fact that investment decisions are made at the portfolio manager's discretion.
-------------------------------------	--

E

Exchange Traded Funds (ETF)	Exchange-traded funds are investment funds that are bought and sold on a stock exchange in the same way as you would trade normal shares. Unlike investment trusts, which are also traded on exchanges, ETFs are mostly passive investments.
-----------------------------	--

F

Financial Conduct Authority (FCA)	The <u>FCA</u> regulates authorised investment funds. The FCA is the UK regulator of Financial Services and requires firms to adhere to strict rules, principles and guidance to put their customers' well-being at the core of their business.
-----------------------------------	---

G

General Data Protection Regulation (GDPR)	The General Data Protection Regulation (GDPR) is a legal framework that sets guidelines for the collection and processing of personal information from individuals who live in the European Union
---	---

I

Investment trust

An investment trust is a closed ended collective investment scheme with a limited number of shares that pools together assets of a number of different investors with the aim of increasing flexibility and lowering costs. They are companies that trade in their own right which means that the price of the shares are subject to supply and demand. Unlike an open ended fund, the manager does not have to deal with fund flows and therefore never a forced seller/buyer.

O

Open Ended Investment Companies (OEIC)

A type of collective investment scheme. It is open ended, so the number of shares in the fund goes up as money is put in and goes down as it is taken out.

P

Personal Data

Platform

A platform is designed to assist the investor and their adviser with arranging transactions, reporting and administering an investment portfolio or pension arrangement. It provides a place to hold various plan types and the ability to easily access and view your financial plans online.

Portfolio

A collection of investments owned by one organisation or individual and managed as a collective whole with specific investment goals in mind.

R

Retail investment product (RIP)

Packaged retail investment and insurance-based products are a category of financial assets provided to consumers in the EU as an alternative to savings accounts.

S

Structured investment products (SIPs)

A structured product, also known as a market-linked investment, is a pre-packaged structured finance investment strategy based on a single security, a basket of securities, options, indices, commodities, debt issuance or foreign currencies, and to a lesser extent, derivatives.

U

Unit trust

A type of open-ended pooled investment vehicle, or fund, which is structured as a trust.

Unregulated Collective Investment Schemes (UCIS)

An Unregulated Collective Investment Scheme is a pooled investment fund whereby a number of investors transfer their money into one pot. The FCA states that UCIS investments are in fact only suitable for a small group of investors.

W

Wells Gibson defines this to include investment management, financial strategies / planning and relationship management.
